

# Pillar 3 – Capital Adequacy and Risk Disclosures

Quarterly Update as at 30 June 2022

## Introduction

Rabobank Australia Limited (“the Bank”) is an Authorised Deposit-taking Institution (“ADI”) subject to regulation by the Australian Prudential Regulation Authority (“APRA”) under the authority of the Banking Act 1959.

In accordance with the Australian Prudential Standard 330 (“APS 330”), financial institutions are required to disclose prudential information. A subset of this information is disclosed quarterly.

## Verification of the Disclosure

This Pillar 3 Disclosure (“the Disclosure”) document is unaudited. However, it has been verified in accordance with the Board approved Prudential Disclosure policy.

## Scope of Application

The Bank is a Level 1 entity for regulatory (“APRA”) reporting purposes. The Bank is a solo entity, therefore does not have any subsidiaries, Level 2 entities.

Level 1	Standalone basis (“Solo”)
Level 2	The consolidation of the Bank and all its subsidiary entities other than non-consolidated subsidiaries (“Consolidated”)

## Context

The Bank currently remains on the Standardised Approach for Credit, Market and Operational risk for APRA regulatory reporting.

## Nature of Business

The Bank continues to focus on the provision of flexible, competitively priced, secured loans to the rural sector in Australia and the raising of retail deposit. The Bank continues to provide online deposit product to retail clients through its Rabobank Online Savings division.

There were no significant changes in the state of affairs of the Bank during the financial year.

## Attachment F

The Bank manages its LCR position on a daily basis according to the Board's risk appetite and includes a buffer above the minimum regulatory requirement.

The Bank maintains a diverse mix of liquid assets consisting of cash with the Reserve Bank of Australia (RBA), Australian Semi- Government and Commonwealth Government securities. This composition has remained relatively stable over the last quarter. In addition, the Bank has in place a \$525m Committed Liquidity Facility with CRUA (the Parent) to boost the Bank's access to liquidity, if needed. The Bank also has access to \$130m of liquidity via the Committed Liquidity Facility provided by the RBA, and approved by APRA. The LCR net cash outflow (NCO) represents potential cash outflows from on and off balance sheet activities within a 30 day liquidity stress scenario, after applying APRA prescribed run-off factors to maturing debt and deposits, and inflow factors to assets. As part of its overall liquidity management strategy the Bank manages its balance sheet in a manner that aims to manage NCOs within the Board's risk appetite. The Bank's funding is predominately deposits, through retail branch clients or the Rabobank Online Savings channel.

There are very limited foreign currency transactions in the Bank, and interest rate derivatives are used to hedge interest rate risk residing in the Bank.

\* \*Unweighted values are calculated as outstanding balances maturing or callable within 30 days (for inflows and outflows)

\*\*Weighted values is calculated after the application of respective haircuts (for HQLA) or inflow and outflow rates (for inflows and outflows)

\*\*\*Adjusted values is calculated after the application of both (i) haircuts and inflow and outflow rates and (ii) any applicable caps (i.e cap on HQLA2 and cap on inflows)
